- .Net Core Course/ Patikadev Academy
- C# Course / Btk Academy

## **SUMMARY**

Being involved in remote work my entire career has taught me to value two key traits, honesty and dependability. I've chosen to live my life by those traits, whether I'm in office in a meeting with my teammates or on the other side of the world, proactively finding a solution to some of our teams' hardest issues. My greatest passion is solving problems. Understanding the real needs is uncovering the true desires and motivations behind. Creating a customer demand, building a new product or expanding the business yells for a mixture of abstract thinking, business analytics skills and product oriented mind. As a Solutions architect I grow those every day.

# EXPERIENCE CAREER TRANSITION

Career Break | Aug 2023 - Present

 I decided to evolve my career from IT Support to becoming a Software Developer. That's why I've started my training with Siliconmade Academy

## **PERKINELMER**
